Tuesday - 20 April 1966

25X1 1. [redacted] Delivered the revised draft of the Rodino
25X1 bill (H.R. 10400) to Mr. Cline of the House Subcommittee on Immigration
and Naturalization.

25X1 2. [redacted] Mr. Fred Mesmer of the Senate Subcommittee
25X1 on Immigration and Naturalization informed me that the report from Immigra-
tion and Naturalization Service on the [redacted] reached the Subcommittee
yesterday. I shall furnish Mr. Mesmer with a background information memo-
randum for the Subcommittee.

25X1 [redacted]

In connection with his inquiry concerning possible Agency assistance in the preparation of material by the Senate Internal Security Subcommittee in collaboration with the Committee of One Million on Chinese Communist subversion in Latin America, Africa and Asia, I gave Martin a list of reliable publications already in existence in this field with the comment that it was the feeling of our people that since much had already been done in this field, it did not appear that much could be added at this time. I told Martin that we naturally wanted to cooperate to the extent possible but thought he would be interested in this initial reaction. Martin said he was interested in this and was happy to have the list.

25X1 4. [redacted] Mr. William Tabak, in the office of Senator Stephen Young, made several calls during the day seeking information on the dates of tenure of the various Directors of Central Intelligence. The information was provided to him.
